www.linkedin.com/in/soham-ghosh-93b565199

Data Science graduate (2025) seeking entry-level Data Analyst opportunities. Eager to apply skills in statistical analysis, data cleaning, exploratory data analysis, visualisation and machine learning to solve practical business problems. A curious and proactive learner, keen to contribute to a team, learn from real-world data, and grow through hands-on analytical work.

EDUCATION

NSHM Institute of Computing and Analytics **2022–2025**

B.Sc. in Data Science | Focus areas: Statistical Data Analysis, Data Mining and Machine Learning

International Institute of Hotel Management (IIHM) **2017–2020**

Advanced Diploma in Hotel Management | Client handling and service delivery

Holy Home School, Serampore **2017 / 2015**

Standard 12th and Standard 10th | General Coursework

SKILLS

Technical Skills

- Tableau
- Advanced Excel
- Python
- Pandas
- Scikit-learn
- Machine Learning Algorithms
- Data Structures and Algorithms
- Exploratory Data Analysis (EDA)
- MySQL / PostgreSQL
- GitHub / Version Control

Non-Technical Skills

- Problem Solving
- Teamwork
- Research
- Communication
- Adaptability
- Fast Learner
- Time Management
- Resilience
- Multitasking

PROJECTS

IPL 2026 Impact Player Prediction

Analysed player-performance indicators across recent Test, ODI and T20 matches to explore potential impact-player candidates for IPL 2026. The project focuses on comparing cross-format performance and identifying useful signals for player assessment.

Focus: Cross-format player-performance analysis.

Voice Emotion Detection Using openSMILE and Machine Learning

Completed as a third-year major project. Used openSMILE to extract acoustic and paralinguistic features from voice recordings and explored emotion classification using SVM, KNN and MLP-based classifiers.

Tools: openSMILE, SVM, KNN, MLP-based classifiers.

Resume Updater and Job Application Automation (In Progress)

Developing an early-stage tool to help users find job listings aligned with their academic background and career profile, support resume updates, and assist with applications to eligible LinkedIn Easy Apply roles. The project is currently in its initial development phase.

Status: Initial phase; functionality and automation workflow are under development.

Customer Segmentation Model Using KNN-Clustering

Developed a machine-learning project to segment customers based on sales data, using data preparation and visualisation workflows to explore customer groups.

Tools: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn. GitHub: github.com/SohamG27?tab=repositories

Profit Estimation of Companies Using Linear Regression

Built a linear-regression model as a decision-support exercise to estimate company profits from available business data.

Tools: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn. GitHub: github.com/SohamG27/Linear-Regression.git

CERTIFICATIONS

AWS Academy Machine Learning Foundations

Foundational exposure to AWS machine-learning and AI concepts, including practical use of services for model-building exercises.

https://www.credly.com/go/pfXZ3HkV

Accenture North America Data Analytics and Visualization Job Simulation (Forage) — July 2024

Completed a simulated Data Analyst engagement: cleaned, modelled and analysed seven datasets to identify content trends, then prepared a presentation of insights for stakeholders.

Forage completion certificate listed in original resume.

Fundamentals of Financial Services

Introduction to key elements and basic workings of the financial services industry.

Udemy certificate listed in original resume.

LANGUAGE PROFICIENCY

• English — Professional • Bengali — Native • Hindi — Professional

PERSONAL DETAILS

Date of Birth: 27/01/1999

Address: 18, Royal Garden Apartments, Thakur Das Babu Lane, Serampore, Hooghly, Pin 712201

Father's Name: Tapash Ghosh **Mother's Name:** Pratima Ghosh
